

CEDAR HILL MIDDLE SCHOOL PROJECT REPORT

SCHOOL REPLACEMENT- PROJECT UPDATE #3

3910 CEDAR HILL ROAD

OCTOBER 18, 2023

As of Wednesday, October 18:

- The construction site has temporary power and site office is set up.
- Fortis Gas has installed a new gas line to run the current school boilers.
- The staff parking lot access road has a newly marked crosswalk for students to safely cross as they come down the path from Shornecliffe Road.
- Excavation of the site has begun.
- The existing utility lines will be rerouted.
- The updated Daily Physical Activity route map has been sent to families.
- Additional outside time equipment is available.
- The school has been given several large branches from the tree removal to use for art projects. Wood drying for the trees may take up to one year.
- Photos & videos of the construction site are taken regularly.

On or after Wednesday, October 18:

- There will be 4 x Four Square Game courts added to the back student outdoor area.
- There will continue to be large construction vehicles coming and going on Cedar Hill Road and Gregory Place.
- The construction may cause additional traffic throughout the day. We would like to emphasize the importance of students who are walking and using the marked cross-walk on Cedar Hill Road to take time to:
 - STOP to press the button for the cross-walk lights to flash and
 - TO WAIT until all cars have come to a complete STOP and
 - LOOK BOTH WAYS before crossing.
 - Students on bikes should WALK BIKES ACROSS the crosswalk.
 - Safety first.
